

# Climats and Sapratin join Weiss Technik France

**Climats**  
a schunk company

**Sapratin**  
a schunk company

# GROWING together

As they already work together for many years, sharing their production sites and developing their complementarity, Climats, Sapratin Technologies and Weiss Technik France take a new step in their shared adventure the 1<sup>st</sup> of January 2022 by merging and becoming Weiss Technik France.

**The Climats and Weiss Technik brands remain, and Sapratin brand becomes Weiss Technik France for the Services activity.**

With the brands Climats and Weiss Technik, we offer you the most comprehensive product portfolio in the world, and we value this complementarity by continuing to develop our innovations for the benefit of our customers.

Moreover, thanks to this merger, our Services teams will be closer to the manufacturer's expertise and thus will continue to strengthen our unique quality of service in France.

**Together, we will be technologically stronger but also more efficient and responsive with our suppliers and customers.**

The merger is a purely administrative measure which has no influence on strategy, products, service, and staff.

The exciting history of the 3 companies will be continued.

# Stronger

for the **best solutions**  
and **services**

This brings numerous advantages for everyone. You will benefit from the consistency and reliability of an innovative and healthy company that continues to offer you integrated solutions from a single source.

In addition, the change of name allows us to streamline processes for more efficiency - and for a safe future.

## That is good for us and good for you.

Everything stays the same, only the name changes.

It goes without saying that your personal contact will still be there for you. And all products are available as before.

Our priority is your satisfaction.

**After all, it's only the name that's changing.**

1980

Weiss Technik France was created in 1980 by the German company Weiss Technik for the design, the manufacturing, and the marketing of test equipment in France.

1997

In 1997, Weiss Technik France acquired the Services' company **SERVATHIN** (Services d'Application Thermique Industrielle) and the designer of equipment company **SECASI** (Société d'Etudes et de Construction d'Appareillages Scientifiques et Industriels), which created in the 1990's, the software **SIRPAC** (Système Intégré de Régulation, de Programmation, d'Acquisition et de Contrôle).

1999

In 1999, Weiss Technik France launches its first spatial simulator and in 2017, the first Fitotron chamber **HGC** (High Growth Chamber), the same year Weiss Technik France obtains the ISO9001 certification.

2017

2018

In 2018, there is the release of the first SkyEvent and in 2019 the first Fitotron chamber **SGC** (Slow Growth Chamber).

2019

Weiss Technik France is in Éragny-sur-Oise (head office in Ile de France) for the manufacture of special equipment and is also located in Martillac (region of Bordeaux) for the manufacture of standard equipment.

2022

The 1<sup>st</sup> of January 2022, nothing changes for **Weiss Technik France** which welcomes Climats and **Sapratin Technologies** teams into its workforce.

# Climats

a schunk company

1974

Manufacturer and designer for more than 45 years, Climats is created in 1974.

1993

In 1993, the software Spirale is designed, and in 1998, appears the first Excal range, whose name is inspired by the sword of King Arthur, Excalibur.

1998

Then the company is integrated into the Weiss Technik France group in 2005.

2005

2014

In 2014, Climats manufactures its 10.000<sup>th</sup> chamber and in 2017, Climats obtains the ISO9001 certification.

2017

The industrial site is in Martillac in the region of Bordeaux.

2022

From the 1<sup>st</sup> of January 2022, only the name of the company **Climats** becomes **Weiss Technik France**. Products, contacts, and brands remain under the **Climats** brand.

Chamber Climats Excal²

1950

The company **Sapratin** was founded in 1950 (merger of two companies: **Société d'Appareillage Rationnel** avec **AéroThermie Industrielle**).

1960

In 1960, it became a leader in climate testing in France.
